I did, and just look where it got me!

No fiddlin' around: we love you little devils a Heck of a lot!  
Come see us often this month, and take advantage of the great  
programs and resources your public Library has to offer!

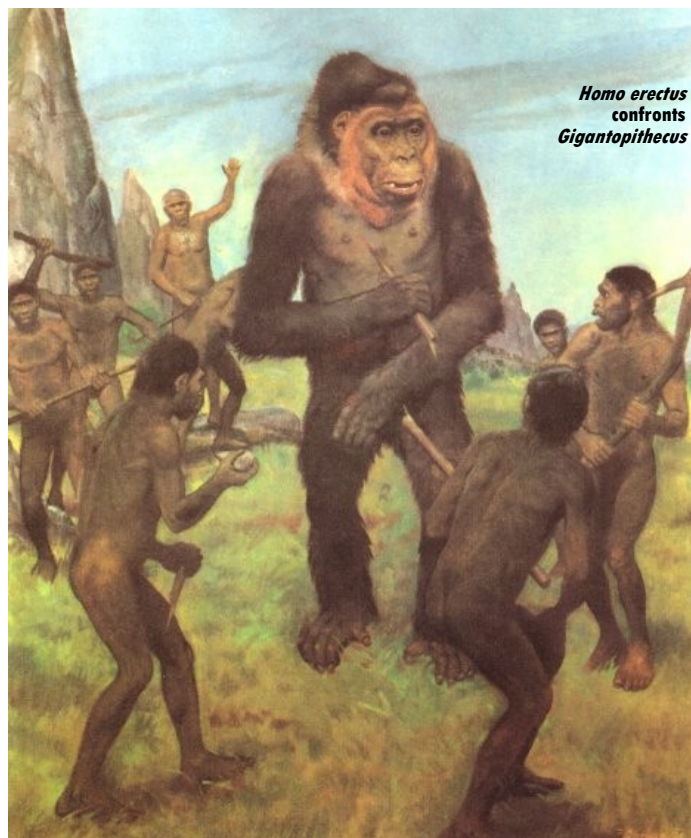

Let's face it: October is a time for monsters and all things mysterious, and that means Bigfoot, Sasquatch and the Yeti! Did you know that the largest ape or primate known to have existed, *Gigantopithecus* of Asia, may have been in many ways similar to the Bigfoot of legend, and was in fact a closer relative to the Orangutan than to Gorillas, Chimpanzees or Humans? Join us at Critters 'n Creatures on Thursday afternoons at 4 to learn awesome stuff like this!

**Have a wonderful Halloween!**  
**Here's wishing you the spirit of the season, and a chill down your spine! And remember, Brain Bug sez: Let's keep it safe out there, kids!**

**THINK SAFETY FIRST**
